

BE02 Crantock Beach, Crantock

Lily's Best Beaches

Crantock beach is the site of the original oratory set up by St Carantoc back in the 6th century, but it was buried by a sandstorm.

The river Gannel flows out to sea at Crantock beach. The rock formation at the head of the river is known as the Goose.

The river Gannel used to have a shipyard just up from Crantock beach, but it has silted up and now large ships can not sail along it.
